COMPARE & SECURE

Plans to fit every security levels need

The R3000, R5000, R7000 harnesses the power of real-time data processing and military-grade access control to provide the only Risk-Adaptive solutions and toolkit for enterprise-grade physical security management using commercial off-the-shelf components.

Legend	
	Included
	Optional

	R3000	R5000	R7000
System Capacities- Server Licenses			
Physical Access Control Reader Licenses - Included	64	1024	Unlimited
Physical Access Control Reader License - Maximum	502	2048	Unlimited
Physical Access Control Credential Licenses	100,000	250,000	Unlimited
Physical Access Control Server License	Included	Included	Included
Physical Security Management Server License	Included	Included	Included
Situational Awareness Server License		Included	Included
Risk-Adaptive Awareness Server License			Included
Risk-Adaptive Command & Control Server License			Included
System Capacities- Clients Licenses			
Concurrent System Workstation Clients	2	4	8
Mobile Commander Smartphone Application	Optional	Optional	Included
Employee Access Provisioning Workstation Clients	Optional	Optional	Included
GPS Maps Workstation Clients		Optional	Included
Alarm Monitoring Thin Clients		Optional	Included
Situational Awareness Workstation Clients		Included	Included
Risk-Adaptive Awareness Workstation Clients			Included
Risk-Adaptive Command & Control Workstation Clients			Included
System Capacities- Data Connectors			
Physical Access Control Hardware Connector	Included	Included	Included
Wireless Credential Reader Connector	Optional	Optional	Optional
Intrusion Detection Connector	Optional	Optional	Optional
ONVIF Camera Connector	Optional	Optional	Optional
Video Management Connector	Optional	Optional	Optional
Video Analytics Connector	Optional	Optional	Optional
Biometric Reader Connector	Optional	Optional	Optional
OSDP Reader Connector	Optional	Optional	Optional
Weapon Detection Connector		Optional	Optional
Emergency Weather Connector		Optional	Optional
Photo Badging Connector		Optional	Optional
Visitor Management Connector		Optional	Optional
Asset Tracking Connector		Optional	Optional
Tailgate Detection Connector		Optional	Optional
Population Counting Connector		Optional	Optional
LED Lighting Connector		Optional	Optional
Active Directory Connector		Optional	Optional
Physical Access Control Software Connector		Optional	Optional

MAKING SECURITY INTELLIGENT

ReconaSense helps protect people, assets, buildings and cities with its next-gen access control and converged physical security intelligence platform. ReconaSense identifies and mitigates potential threats and attacks before they happen giving security teams the ability to go beyond managing data and individual alerts to achieving true situational awareness and rapid response capabilities.
